Advaya Shaale

A Waldorf Inspired School

Welcome to Advaya Shaale Advaya Shaale is founded on the contemporary interpretation of an Indianised version of Steiner Waldorf philosophy. The school aims to foster in children, an intrinsic love for learning that emphasizes goodness, beauty and truth. The school intends to encourage and nourish the highest expression of Willing, Feeling and Thinking in the children, thus enabling them to emerge as conscientious and Harmonious World Citizens.

Admissions -

1. Content to remain the same
2. Curriculum Tab to be added - Content pending

Community

Advaya Shaale began with the support and hard work of the parent and the teacher community. 6 years on, we understand that it is imperative for the micro communities within Advaya Shaale to function smoothly to enable to the macro to keep moving forward. The Parent Community involvement in Advaya Shaale is one of an involved nature.

The Advaya Shaale annual school bazaar is one of the largest events wherein parents come together and organise the same. We also have parents who have joined the teaching staff at Advaya Shaale. Along the year, there are many opportunities wherein parents come forward like workshops, activities with children, marketing support, fundraising and so on. The School Management also consults the Parent Community before any significant decisions are made with regard to the functioning of the school.

The Parents and Staff are all here for one reason - Our Children, and that responsibility is understood very deeply by all.

1. Testimonials
2. Parent Blogs - One article available on the community page
3. Parent Workshops - No Upcoming Workshops

Support Us

Advaya Shaale - a Waldorf school, began in the year 2016 with 9 children, 3 teachers, 1 classroom and a big dream....

In the past 6 years we have consistently built on this dream and today have grown to a 100+ children, 22 teachers, 7 classrooms and an even bigger dream !

Advaya Shaale is currently located in the north of Bangalore (Kasturinagar) on a leased property. We have come this far with the continuous support of our parent community and some well wishers....but to realise our bigger dream we need support from the larger community - from You.

We now need to buy our own piece of Earth and then build our School. We are looking for about 3 acres of land in the north of Bangalore.

Waldorf Education focuses on educating and enriching the whole child - their head, heart and hands.. The child of today, has to most definitely take on a new world and new challenges...and they can do so with courage only if they are self reliant, confident individuals. At Advaya Shaale, we are working everyday to support and guide the citizens of tomorrow following the principles and tenets laid down by Rudolf Steiner.

Please do support us in realising this dream for our children and to be part of our journey

Buttons to flip (refer <https://www.prairiehillwaldorf.org/why-waldorf/>)

1. **Donate** - Please do follow the link to donate a sum of money.
